BEARDED DRAGON RESCUE

For several years a group of Bearded Dragons have made their home in the bush at the rear of the school's oval. At times they come to the oval to feed.

Late last year, at the Grade 2 sleepover, a group of students found an injured Bearded Dragon on the oval. It was rescued and placed into the care of Kathy Campbell, a Wildlife Carer. While in care the lizard laid 17 eggs. Since then, after some intensive care from Kathy, the mother lizard recovered and has been released back to the wild.

Kathy has kept the eggs in an incubator and this week they have started to hatch. So far about half of the eggs have hatched. They will be released into the wild in the near future. Please remind children to stay away from any wildlife to avoid injury both to the wildlife and the child themselves as they will bite if they feel the need to defend themselves.

Thanks to Kathy for the care and dedication she has put towards this lizard family. *By Leah J*

FROM ROOM 11: SING - JSC Election Speeches

Hi, I am going to tell you today why I will be a good Junior School Council member. Firstly, since I have never been in Junior School Council before I would like to experience this for my last year how it would feel like to be a member. I have lots of great qualities like I am kind, friendly and if you suggest ideas for the school you can trust me to take it to the meetings. Secondly, I am good at organising activities such as talent quests, discos and basically everything like that. Lastly I am caring for people and have great leadership abilities. That is why I should be elected for Junior School Council. *By Siahnna A*

I strongly believe you should vote for me because I would like to represent the school. You should elect me because I'm trustworthy and faithful. You can believe in me because I always work hard to do what I say. You should vote for me because I encourage everyone to be their best especially at the school sports. I help the school by not littering, helping in the office, I help others when they are hurt and I encourage other students to do the same. I contribute to the school by helping in the office and I help others when they're hurt. They are my reasons why you should elect me to the JSC. Thank you for listening to my speech. *By Chelsea Y*

My name is Keeley and I want to become a Junior School Councillor because I am friendly people and I do remember things and I am fast at things. I am a friendly person and I get along well with people. I play soccer and get along well with all my team mates. I have a tremendous memory and remember to do things. I am reliable and remember to get my stuff out ready for school. I am a fast thinker and think of good ideas. I think of ideas for my older sister to help her job. I should become a Junior School Councillor because it's an opportunity for me to have a go at being a Junior School Councillor because I haven't had a choice to have a go. *By Keely*

FROM ROOM 13 - Is The Big Bad Wolf Really A "BAD" Wolf?

I strongly believe that the big bad wolf is not bad at all. Here are some statements from my point of view.

Firstly: The wolf had a bad sneeze and he sneezed all of the sugar on the floor. So he set off to the first pig's house and asked for sugar but he sneezed again and blew the house down. He saw the pig dead so he ate it.

Secondly: He went to the third little pig's house and asked for sugar but all the pig did was assault him and the wolf got angry at the pig.

Thirdly: The news reporters and the cops saw him argue with the pig. When he looked at the paper the newspaper made all of it up to make the wolf angry.

That is why I strongly believe that the wolf is innocent and didn't do anything wrong.

Written By Callum

The Big Bad Wolf was a character out of The Three Little Pigs and he was apparently bad. The wolf has never had his say and I believe that he is not a bad wolf.

Firstly the wolf said that he has had a terrible sneezing problem hence why he sneezed the first two houses down.

Secondly he needed a cup of sugar for his grandmother's birthday cake because he had run out of sugar. He went to see his neighbours for a cup of sugar.

Lastly when he sneezed he killed the first two pigs and because he is not wasteful of his meat, he ate them otherwise they would have rotted. If someone came and ate them they would have got food poisoning and probably would have died as well.

In Conclusion I strongly believe that the wolf did not do anything wrong. The pigs were being rude to the wolf.

You know the wolf from the story of The 3 Little Pigs. I believe he is not bad and these are the reasons why:

Firstly the bad wolf isn't bad he just had a bad cold and could sneeze at any moment.

Furthermore he needed a cup of sugar and the reporters made it sound like it was his entire fault. So he was **FRAMED!!!!**

Finally he went to the pig's houses to get some sugar and like I said he could sneeze at any moment, well he sneezed a HUGE sneeze and the house fell down. He ate an already dead pig.

These are some of the many reasons why he is **INNOCENT!!!!** BY Adam

I strongly believe the big bad wolf is not a bad wolf. Here are some reasons why.

For starters he was baking a cake for his Granny and he ran out of sugar. So he went to his neighbours to see if they had any sugar, not to attack the pigs.

To follow on he had a cold. So when he sneezed the houses fell down because they were weak.

So when the pigs died he ate them, he didn't like to waste food.

For my last argument when he got to the third pig's house the pig was rude to the wolf. He said his Granny can go sit on a pin and the wolf took it seriously and he tried to blow the house down and when the police got there he was at the wrong place at the wrong time.

To conclude I believe the big bad wolf is not a bad wolf after all. He just has not had his side of the story told correctly. By Mitchell S
